Distribution Centers

So that stores can have just the right amount of product on the shelf, regional distribution centers stock all of the merchandise including the pharmacy RX products and deliver to each store on a set schedule. With each DC supporting approx. 500 stores, each DC rolls about 50 trucks and deliver more than 70,000 products per day.

Acquired by CVS in January 2014, Coram sites are pharmacies which provide at infusion services administered by Coram nurses at home or at a Coram Infusion suite. 2022 – Coram downsized and divested about 35 sites.

- Customer Facing – 70 of 95 locations have ambulatory infusion suites (AIS)
 - Customers receive onsite infusion treatments
 - Treatments can take several hours.
 - Customers use WiFi during their treatment sessions
 - WiFi coverage is not adequate for customer experience
- IV bags are custom mixed onsite, referred to as “compounding”, in a sterile clean room environment.
- Most IV bags are shipped via UPS to customer homes and a Coram nurse visits the customer in the home to administer the IV.
